

# EMIS Web Home Screen

The screenshot shows the EMIS Web Home Screen interface. The top navigation bar includes workflow hyperlinks (Referrals, GP2GP, Registration, Lab Reports, Tasks) and a quick access toolbar. A patient précis bar displays details for George Ridley. The main content area is divided into several sections: a quick launch menu, an appointments table (if configured), an organisation notepad, and RSS feeds. The interface also features a shutdown/close button, a panic button, and EMIS website hyperlinks.
