

NECS Clinical Systems Specialist Team Joining Reports

Viewing Report Information

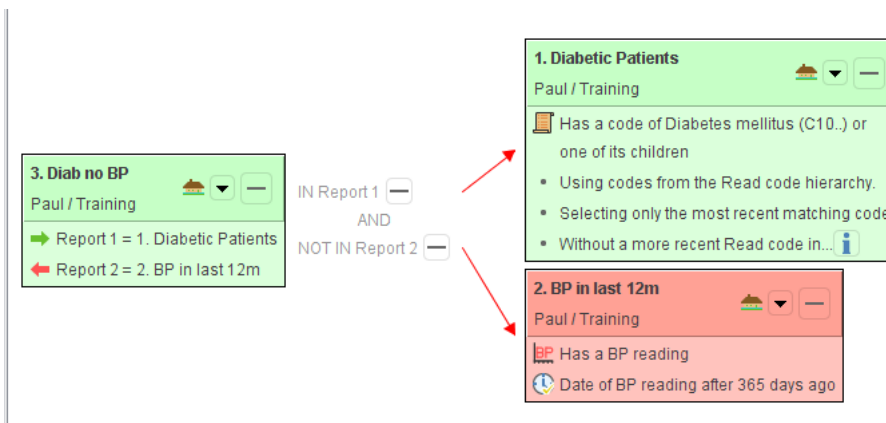

1. To view the report criteria information do one of the following:
 - a. Highlight the required Report and click the Blue **Show Information** button or
 - b. Right click on the Report and select **Show Information**

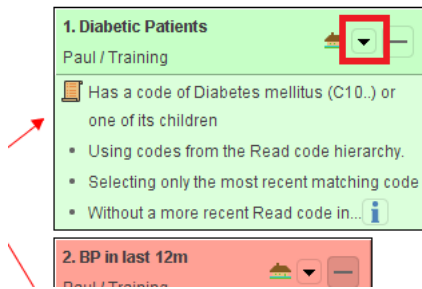

2. To see all of the reports involved, click **Expand All Joins** and **Toggle Information**.

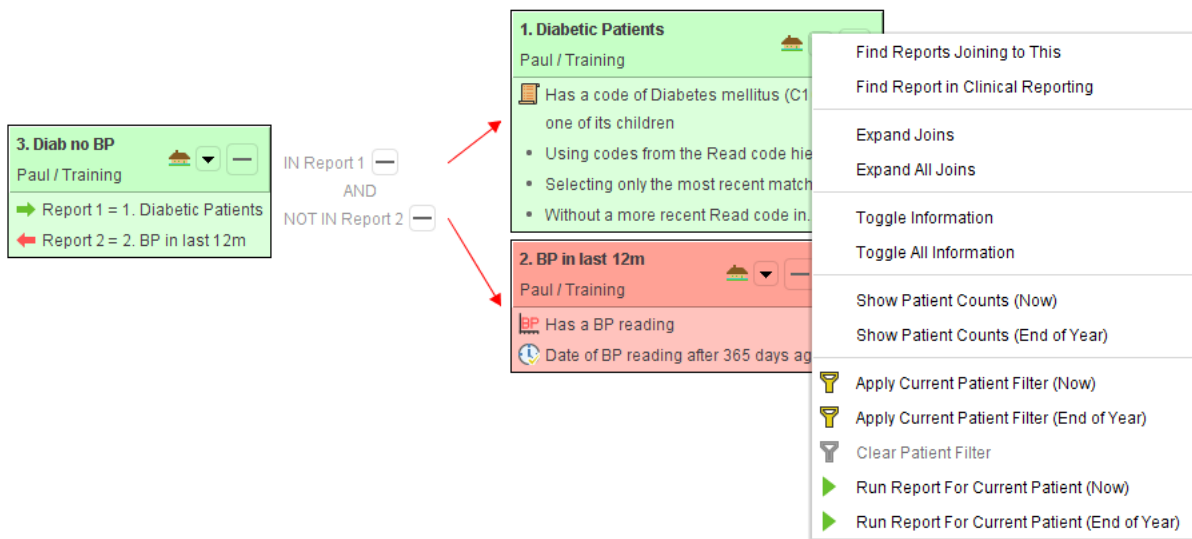

3. This shows all of the linked reports and how they are joined together (Expand All Joins) and also shows the criteria used within each report (Toggle All Information).

4. Click the dropdown menu for further options on any if the displayed reports.

5. You can expand individual paths using this menu or run the selected report on a single patient in real time (as long as the record is already open).

6. Click Close to return to Clinical Reporting.
